- Insect bites & stings
- Hives, nettle rash
- Sunburn
- Heat rashes
- Personal itching

Suitable for adults and children; consult your doctor before use on children under 3 years of age.

Do not use: in or around the eyes, on broken skin, for weeping skin conditions or if you are sensitive to any of the ingredients.

Cautions: Derma Care Itch Relief Cream is not recommended in pregnancy.

Consult your doctor or pharmacist before using Derma Care Itch Relief Cream if you are breast feeding, or suffering from genital itching.

This product contains stearyl alcohol which may cause local skin reactions (e.g. contact dermatitis) and methyl hydroxybenzoate which may cause allergic reactions (possibly delayed).

Directions: Apply to the affected area 2-3 times daily. Irritation will be relieved for 6 to 10 hours. If symptoms persist consult your doctor. Derma Care Itch Relief Cream can be used for children. For children under 3 years of age consult your doctor before use and do not apply more than once a day.

Unwanted effects: Derma Care Itch Relief Cream may occasionally cause skin irritation or allergy. If this occurs or if you experience other symptoms, stop using the product and consult your doctor. If Derma Care Itch Relief Cream is accidentally swallowed, contact your nearest hospital casualty department or tell your doctor immediately.

Keep all medicines out of the reach and sight of children.

Do not store above 25°C. Do not use after the expiry date given.

Active ingredient: Crotamiton 10% w/w

Also contains: methyl hydroxybenzoate E218, phenylethyl alcohol, glycerol, triethanolamine, sodium lauryl sulphate, ethylene glycol monostearate, stearyl alcohol, strong ammonia solution, stearic acid, hard paraffin, white beeswax, perfume and purified water.
