

BACH FLOWER REMEDIES

The basis of this increasingly popular complementary therapy is the therapeutic effect flowers can have on our emotions – particularly when trying to cope with life's ups and downs.

HOW THE REMEDIES WORK

Harley Street physician Dr. Edward Bach created these homeopathic remedies from plant and flower extracts in the 1930s, working on the principle that "a healthy mind leads to a healthy body." He believed that long term upset or unbalanced emotions may be manifested in physical symptoms or contribute to illness. To help avoid this, Bach used extracts to help overcome negative feelings and rebalance the emotions. There are 12 Flower Remedies for individual personality types and 26 for specific emotional states. Whether you're feeling guilty about juggling domestic responsibilities with a career or unable to stop thinking about a broken relationship, one or a combination of Bach Flower Remedies may help rebalance your emotions.

HOW TO TAKE YOUR REMEDY

Take two drops diluted in water and sip at intervals or dropped directly on the tongue.

You may want to combine several Bach Flower Remedies to get you back on track. Add two drops of each remedy (no more than seven remedies) to water.

This all-natural therapy is suitable for all the family, can be used alongside orthodox medicine and has no contra-indications.

Keep all medicines out of the reach of children.

HOW TO CHOOSE THE RIGHT RESCUE REMEDY FOR YOUR EMOTIONS

To decide on the right remedy for you, choose from seven categories of negative emotions listed below, and then select the remedy that most closely matches your state of mind. You may not recognise all the feelings described, but one or more of them may feel uncomfortably familiar. If so, the Flower Remedy recommended to help balance those emotions is the remedy for you.

- **Despondency or despair**
- **Fear**
- **Lack of interest in present circumstances**
- **Loneliness**
- **Over-concern for others**
- **Over-sensitivity to influences and ideas**
- **Uncertainty**

Blends are also available. Please scroll down to the end of the seven categories of emotions to find out more about these.
