Before you use this medicine

X Do not use:

- **If you are allergic** to any of the ingredients
- You can** use this medicine if you are pregnant or breastfeeding.

✓ **How to use this medicine**

Shake the bottle well before use.

Adults and children of 2 years and over: Rub the applicator directly onto the bite or sting, when you need to. Repeat if the itching does not go away. It is better to use this medicine as soon as possible after you are bitten or stung. Do not bandage or cover the affected area until the liquid is dry.

Apply to the skin only.

Avoid contact with the mouth and eyes. If this happens rinse well with water.

Do not use on children under 2 years.

If symptoms do not go away talk to your doctor.

- ! If anyone accidentally swallows some:** Drink milk and citrus juices and talk to a doctor straight away. Take your medicine with you.

Possible side effects

This medicine is not expected to cause side effects.

However, if any of the following effects continue or worsen stop using the medicine and see a doctor:

- Rash, redness, irritation, pain, swelling

If you notice any other side effect, please tell your pharmacist or doctor.

Reporting of side effects

If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via the Yellow Card Scheme at: www.mhra.gov.uk/yellowcard. By reporting side effects you can help provide more information on the safety of this medicine.

How to store this medicine

Do not store above 25°C.

Keep all medicines out of the sight and reach of children.

Use by the date on the bottom of the carton.
