

NANOGEN[®]

The Science of Thicker Hair

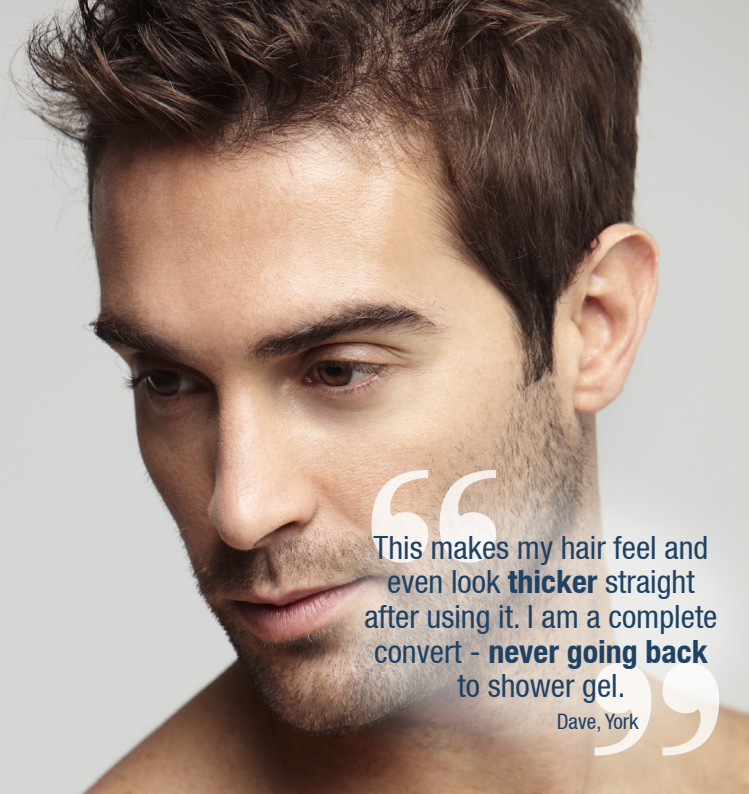

THICKENING TREATMENT

FOR MEN

GET THICKER HAIR TODAY

Recommended by Dermatologists

“This makes my hair feel and even look **thicker** straight after using it. I am a complete convert - **never going back** to shower gel.”

Dave, York

EVERY MAN WANTS THICKER HAIR

Looking good makes us more confident and it's only natural we want to look our best. That just-barbered thickness you get after a hair cut can be difficult to maintain, particularly for those of us with thinner hair, or more hair loss than average.

NANOGEN WILL HELP

Unlike any other product you've seen before, Nanogen Thickening Treatments create real thickness from the first wash. They're fortified with patented Hair Growth Factors - these are signals identical to the natural ones your body uses to stimulate hair growth. Age and stress can reduce the amount of Hair Growth Factors you make naturally, so reinforcing them with Nanogen gives your hair the boost you need.
