

How much does the service cost?

In store

When you join the service in store, you can try a 4 week supply of medication. We offer you the choice of two prescription only medicines, containing finasteride. Once established on the service there are different treatment lengths to purchase:

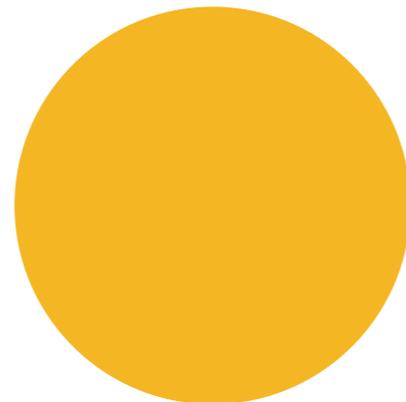

Option 1	Option 2
4 weeks £42	4 weeks £52
8 weeks £73	8 weeks £91
12 weeks £95	12 weeks £110
24 weeks £162	24 weeks £200

The Pharmacist will be able to talk to you about the two options available.

Online

Prices for using the online clinic are available at [boots.com/online-clinics](https://www.boots.com/online-clinics)

These services are a long-term approach to hair retention, so it's worth thinking about the potential cost before starting treatment. Any results gained from the medication will only remain while you continue taking the medicine. Your Pharmacist will be happy to chat about this and any other concerns you might have during your consultation.

You and Boots. Let's feel good together.

Our fully trained staff are on hand in store to give you advice and help. Or you can contact our Customer Care Helpline on **03450 708090** (local rate, calls may be recorded for training purposes) between the hours of 8.30am and 7pm Monday to Friday and 8.45am and 5pm Saturday and Sunday.

Products may be available in selected larger stores only and may be subject to stock availability.

All details are correct at time of going to print May 2020.

Hair Loss Service

Let's keep ahead of hair loss

Male pattern baldness is the most common form of hair loss and it's thought to affect around 6.5 million men in the UK.

The good news is, as part of our Hair Loss Service, we can help you understand the condition and take positive steps to get things under control.

So, what am I dealing with?

Male pattern baldness is a type of hair loss that follows a set, recognisable pattern. The first telltale sign is a receding hairline, followed by thinning of the hair on the crown and temples. As hair loss continues, the top of the head becomes bald, eventually leaving hair around the back and sides only.

The condition tends to be hereditary and for some men can start as early as their late teens. Caused by a combination of genetic factors and the hormone dihydrotestosterone (DHT), hair follicles shrink and eventually stop working. This means the 40-120 strands of hair we all lose every day are no longer replaced with new hair.

How can Boots help?

Our Hair Loss Service is a great way to manage male pattern baldness – as well as helping to stop hair loss, treatment can stimulate the growth of new hair too.

How does the in store service work?

By combining one-to-one advice and support with a prescription medicine, we can help you prevent further thinning and hair loss in 3 easy steps.

1 Ask one of our Pharmacists or the Pharmacy team for more information about the in store service*, or book an appointment online at [boots.com/appointments](https://www.boots.com/appointments)

2 Go along for a confidential chat and assessment with a specially trained Pharmacist

If the service is right for you, we'll provide you with an initial four-week supply of prescription medicine to help get your hair loss under control. Charges apply. See overleaf for details.

3 You'll also get lots of support throughout the service

You'll be offered regular follow-up reviews – the first when you've completed your initial supply of medication.

How can I access the Hair Loss Online Clinic on boots.com?

(www.boots.com/online-clinics/hair-loss-online-clinic)

Our online clinic is easy and convenient, and there's no need for a face-to-face consultation. Instead you need to complete an online consultation at boots.com and, if after a review by one of our clinicians, the medicine is suitable for you, we'll arrange for your treatment to be ready and waiting for you to collect at a selected Boots Pharmacy or delivered to your door. Charges apply. See website for details.

*In participating stores. You can find these by using the store locator on boots.com or by calling Customer Care on 0345 301 4219. Local rate. Calls may be recorded for training purposes

Am I eligible for the in store service?

The service is available to men aged 18 years and over who suffer with male pattern baldness and are registered with a UK Doctor.

The service isn't suitable if you:

- are a woman
- have a partner who is pregnant or trying to conceive
- have prostate problems
- are losing hair due to the side effects of medication
- have sudden hair loss as a result of another cause
- are currently receiving dialysis
