STUD 100 Desensitizing Spray for Men
Lidocaine 9.6%, w/w

Read this entire leaflet carefully because it contains important information for you.

This medicine is available without prescription. However, you still need to use
STUD 100 carefully to get the best results from it.

If any of the side effects become serious, or if you notice any side effect
not listed in this leaflet, please tell your doctor or pharmacist.

This leaflet has been written for the information of patients.

WHAT STUD 100 IS AND WHAT IT IS USED FOR

1. STUD 100 is a mist that delays ejaculation.

2. Before you use STUD 100:
   - Do not use if you have a full erection.
   - Be sure that you and your partner are comfortable with this treatment.
   - If you or your partner are allergic (hypersensitive) to any components of the spray, tell your doctor or pharmacist.

3. How to use STUD 100:
   - Shake well before use.
   - Hold the spray 15-20 cm away from the skin of the penis.
   - Direct the spray onto the glans of the penis just before penetration.

4. Possible side effects:
   - Over-rapid or premature ejaculation (coming to a climax too quickly).
   - Over-reduced sensitivity (loss of sensation) that is uncomfortable.

5. How to store STUD 100:
   - Keep this spray out of reach of children.
   - Store this spray at room temperature.
   - Do not refrigerate or freeze.

6. Further information:
   - If you have, or have ever had, liver or kidney problems – ask your doctor or pharmacist if it is safe for you to use this medicine.
   - Take extra care when driving or operating machinery.

**HOW TO USE STUD 100**

The quantity used and timing will vary with individual requirements but the usual recommended dosage is 3 to 8 sprays to the head and the shaft of the penis 5 to 15 minutes before intercourse. You should always use the minimum effective quantity.

- This spray is for external use only. Do not spray near the eyes or nostrils.
- Wash off the spray after intercourse.
- Do not use the spray for more than 3 months without consulting your doctor.
- Do not exceed a maximum of 24 sprays in 24 hours.

---

**IF YOU USE MORE STUD 100 THAN IS RECOMMENDED**

In the unlikely event of a suspected overdose seek prompt medical advice.

If you have any further questions on the use of this product, please ask your doctor or pharmacist.

**STUD 100 is suitable for most men, but like all medicines it can sometimes cause side effects.**

- Rash or irritation - If you or your partner develops a rash or irritation stop using the spray.
- No other side effects associated with the use of STUD 100 Desensitizing Spray for Men have been reported as only extremely low levels of Lidocaine are absorbed. However, high blood levels of Lidocaine (i.e. 25 times the recommended dose of STUD 100) can cause side effects such as nervousness, dizziness, convulsions, loss of consciousness, as well as effects on the heart and lungs.

If any of the side effects become serious, or if you notice any side effects not listed in this leaflet, please tell your doctor or pharmacist.

**KEEP OUT OF THE REACH AND SIGHT OF CHILDREN.**

**DO NOT USE STUD 100 AFTER THE EXPIRY DATE WHICH IS STATED ON CAN.**
