Rosacea & Couperose

Read this instruction leaflet carefully before using Dermalex Repair Rosacea & Couperose. To achieve the best results please follow the instructions provided carefully.

- Keep this instruction leaflet. You may need to refer to it again during treatment. Should you require any additional information, please contact your doctor or pharmacist.
- If symptoms persist or in case of side effects that are not mentioned in this leaflet, see your healthcare professional.

Ingredients

Tri-solve®, Ethylhexyl Methoxycinnamate, Butyl Methoxydibenzoylmethane, Bisabolol, Esculin, Triticum Vulgare Germ Extract, Echinacea Angustifolia Extract, Boswellia Serrata Extract, Zanthoxylum Bungeanum Fruit Extract, CI 42051, CI 19140

What is Dermalex Repair Rosacea & Couperose and what is it used for?

- Dermalex Repair is a dermatologically tested product for the treatment of rosacea and couperose skin symptoms such as redness, flushing, visible spider veins, tightened and hardened skin and dryness.
- Dermalex Repair reduces the typical symptoms of rosacea by promoting the full restoration of the skin's barrier function. The patented Tri-solve® technology creates a protective film on the skin helping to restore a thick and hydrated epidermis.
- Dermalex Repair also protects the skin through specific UV filters neutralising an important trigger in the appearance of rosacea and couperose symptoms. In addition, the cream contains well known soothing and calming ingredients and a green pigment to reduce the skin's redness and increasing self confidence.
- Dermalex Repair Rosacea & Couperose is clinically tested by dermatologists.
- Absorbs easily, not greasy.

What you should know before applying Dermalex Repair Rosacea & Couperose

- Dermalex Repair can be applied to all skin types.
- Dermalex Repair is free from perfumes and parabens.
- No allergic reactions were documented during or after the clinical studies on this product.

How to apply Dermalex Repair Rosacea & Couperose

Always apply Dermalex Repair by following this instruction leaflet. If you have any doubt about these instructions for use, please consult your doctor or pharmacist.

Instructions for use

- Please remove the aluminium seal underneath the screw top before use
- Apply a thin layer of Dermalex Repair Rosacea & Couperose on the affected area.
- Repeat this procedure twice a day, in the morning and in the evening.

Important warnings and precaution

- Never apply Dermalex Repair Rosacea & Couperose cream on a cracked or injured skin.
- Avoid contact with eyes and genitals. In case of contact, rinse thoroughly with lukewarm water.
