Boots Opticians – bigger and better

You now have over 680 stores to choose from when it comes to picking your favourite frames, thanks to a Boots Opticians merger with D&A. All existing D&A opticians will soon be rebranded as Boots Opticians, where the strong heritage and commitment to service and customer care of both brands will be even more widely available to you.

The new Boots Opticians will feature lots of fantastic designer brands as well as those exclusive to Boots Opticians, such as Kyusu.

To find your nearest Boots Opticians or D&A store you can visit www.bootsopticians.com
Why does your company need corporate eyecare?

The 1992 Health and Safety (Display Screen Equipment) regulations were introduced to improve conditions for all employees who work with visual display units (VDUs) or who need safety glasses in their work.

If your company employs people to drive for their work, whether company car or delivery vehicle, under the ‘Corporate Manslaughter’ bill, you have a duty of care to ensure that they are safe to drive and that they meet the strict requirements of the Highway Code and relevant road traffic laws relating to eyesight and the Health and Safety Act 1974.

What does this mean for your company?
The welfare of your employees’ eyesight is your responsibility. The Boots Opticians corporate eyecare scheme can ensure that your legal requirements are met, whilst offering a benefit that many employees value highly as part of their employee benefits scheme.

Your company is obliged to provide the following for employees who regularly use display screens at work or need safety glasses in their work:

- A full eye examination from a qualified Optometrist
- Subsequent eye examinations at regular intervals as specified by the examining Optometrist
- Basic glasses if they’re found necessary for VDU work
- Safety glasses if they’re found necessary for the work undertaken

For your drivers, providing a regular eye examination will help to ensure that they’re driving legally and protect them from potential prosecution or injury. Your company could also make big savings on damage caused to company vehicles because of poor eyesight.

Boots Opticians – corporate eyecare to feel good about

At Boots Opticians, we know that you need a simple way to provide eyecare to your employees. We want to make life easy and help you to control costs, whilst offering your employees the very best eyecare available.

Our scheme is so easy to use, with nothing to pay upfront – no joining fees, no administration costs and no vouchers to buy in advance.

Tel: 0115 959 1279
email: employee.eyecare@boots.co.uk

What can Boots Opticians offer?
A full eye examination from a qualified Optometrist for £15 including:
- Full history and symptoms
- Internal eye pressure
- Visual field screening
- Colour perception
- Interior and exterior examination for eyes
- On site pre screening tests
- Prescription safety glasses from just £40
- Single vision glasses for VDU users for just £25

Glasses for VDU users
If during the eye examination, we establish that your employee would benefit from prescription glasses for use in their work with a display screen, we can provide a complete pair of single vision glasses at a cost to you of just £25 – but we’ll allow your employee to choose from a range of dozens of glasses in our own brand complete priced range – up to £79. We’ll even include an anti-scratch and anti-reflective coating at no extra cost! For more information – see the VDU page.

Safety glasses
We have an extensive range of safety glasses with prices starting at just £40 for Boots single vision safety glasses with CR39 lenses.

We’re also proud to be able to provide Bolle safety glasses. Bolle has become a byword for quality and enjoys a glowing international reputation for protective eyewear. For more information – see the safety page.

Boots Opticians ‘Business Class’

We know that only a small number of people would benefit from glasses just for use at the computer, but that many more are, or should be, wearing glasses for activities such as reading, watching TV or driving, and we want to help them out with the cost of their eyecare too. That’s why we’ve launched our ‘Business Class’ employee benefits scheme. Simply because your company is a member of the Boots Opticians corporate eyecare scheme, your employees and their family will be able to make big savings on the cost of their eyecare.
VDU eyecare

The 1992 Health and Safety (Display Screen Equipment) regulations were introduced to improve conditions for all employees who work with visual display units (VDUs).

What does this mean for your company?

The welfare of your employees’ eyesight is your responsibility. The Boots Opticians corporate eyecare scheme can ensure that your legal requirements are met, whilst offering a benefit that many employees value highly as part of their employee benefits scheme.

Your company is obliged to provide the following for employees who regularly use display screens at work:

• A full eye examination from a qualified Optometrist
• Subsequent eye examinations at regular intervals as specified by the examining Optometrist
• Basic glasses if they’re found necessary for VDU work

What can Boots Opticians offer?

A full eye examination from a qualified Optometrist for £15 including:

• Full history and symptoms
• Internal eye pressure
• Visual field screening
• Colour perception
• Interior and exterior examination for eyes prescription
• Single vision glasses for VDU users for just £25
• Safety glasses from just £40

Glasses for VDU users

If during the eye examination, we establish that your employee would benefit from prescription glasses for use in their work with a display screen, we can provide a complete pair of single vision glasses at a cost to you of just £25 – but we’ll allow your employee to choose from a range of dozens of glasses in our own brand complete priced range – up to £79. We’ll even include an anti-scratch and anti-reflective coating at no extra cost!

These images are representative of the type of glasses available within the VDU eyecare offer. Not all frames will be available at every store and styles may change.
Safety eyewear

The Boots Opticians corporate eyecare scheme provides an extensive range of prescription eye protections suitable for all working environments.

We have a comprehensive range of safety eyewear to ensure the correct fit and therefore the safety of your employees’ eyes. We offer two ranges of safety eyewear, both of which are CE approved to EN166.

In order to establish the best type of safety glasses for your employees, you should conduct a risk assessment of your working environment. This should be reviewed on a regular basis to ensure that you are offering the best possible eye protection for your people.

Eye examination

We can provide a complete eye examination for all of your safety eyewear users. We would recommend that an eye examination is carried out at the time of ordering safety glasses, so that we can be sure that the prescription is as accurate as possible and therefore ensuring the safety of the wearer and negating the need for the glasses to be replaced sooner than necessary due to a change in prescription.

For the Boots safety range, we can carry out a full eye examination for £15, a saving of at least 25% on our normal fee.

Lens types

Safety eyewear can be provided with 3 different lens materials – CR39, Polycarbonate or Toughened Glass.

CR39 – provides a lightweight lens option that is suitable for working environments where the risk to eyesight comes from light objects travelling at low speed, such as cardboard packaging.

Polycarbonate – provides a very lightweight lens that is tough and durable and able to cope with most situations in which safety glasses are needed.

Toughened Glass – heavy weight and unsuitable if being worn for long periods of time. Recommended in situations where plastic lenses wouldn’t be suitable, for example if likely to come into contact with chemicals.

Frame types

The most important consideration of any safety frame is the fit, which is why we offer a sample of most of our safety glasses to be tried on in store before ordering, and a complete measurement and fitting service before your employee starts using their new safety glasses.

The Bollé range offers the very latest in safety, style and technology. Their range includes very lightweight, stylish frames that your employees will find very wearable and that will stand up to the toughest of tests.

Eye examination

We can provide a complete eye examination for all of your safety eyewear users. We would recommend that an eye examination is carried out at the time of ordering safety glasses, so that we can be sure that the prescription is as accurate as possible and therefore ensuring the safety of the wearer and negating the need for the glasses to be replaced sooner than necessary due to a change in prescription.

For the Boots safety range, we can carry out a full eye examination for £15, a saving of at least 25% on our normal fee.

Not all frames will be available at every store and styles may change.
If your company employs people to drive for their work, whether company car or delivery vehicle, under the ‘Corporate Manslaughter’ bill you have a duty of care to ensure that they are safe to drive and that they meet the strict requirements of the Highway Code and relevant road traffic laws relating to eyesight and the Health and Safety Act 1974.

Many companies are introducing a driver’s eyecare scheme, making sure they have regular eye examinations and wear appropriate eyewear to help make them safer on the roads.

Boots Opticians can help you implement and launch such a scheme, easily and very cost effectively.

- The cost of providing a scheme to your drivers can quite often be quickly recovered through a reduction in insurance claims and by providing a driver’s scheme you may even be able to reduce your insurance costs.

- Your employee is able to choose from dozens of frames from our own brand complete price range up to and including our £79 range.

Boots Opticians ‘Business Class’

As a member of the Boots Opticians corporate eyecare scheme, you will be able to provide fantastic ‘Business Class’ employee benefits to your people at better than Economy Class prices – there’s no cost to you!

We’ll provide you with employee benefits voucher books that can be used by your employees and their family to save money on their eyecare.

Great money-off vouchers to use towards prescription glasses and sunglasses

Your employees will also earn Boots Advantage Card points on their purchases!

The benefits will be updated regularly, and the offers may change from time to time, but they’ll always include great money-off vouchers to use towards prescription glasses and sunglasses.

An excellent way to reward your people – with no cost to you! All that we ask in order for you to receive the ‘Business Class’ vouchers are that you have an ‘active’ account with Boots Opticians and use us for your employee eyecare.

How to join and how it works

It’s so easy to become part of the Boots corporate eyecare scheme, and give your employees access to eyecare at almost 700 stores across the UK.

Inside this information pack, you’ll find a credit application form, which you simply complete and return back to us.

Once we’ve received this, we’ll arrange an account for you, and send out your welcome pack and authorisation forms – you’ll need these to give out to your employees when they need eyecare. We’ll also send your ‘Business Class’ vouchers and some posters to help you promote the scheme to your people.

You’ll then be ready to offer great eyecare to your employees. Simply complete the eyecare authorisation form as you need to and indicate the service you’d like us to provide for the holder – for example an eye examination and VDU glasses if required or safety glasses. Complete the authorisation form, detailing the service you’d like us to provide to your employee, for example an eye test and glasses if they’re just for VDU use. There’s also an option for you to offer more generous contributions towards your employees’ eyecare – simply complete the relevant section of the form.

We’ll provide a great service to your employees and we’ll send you a monthly invoice detailing the people we’ve seen and the service we’ve provided to them. This will give you a monthly record of use of the scheme within your organisation.

If you’d like to know more about the scheme, please contact us on our corporate eyecare helpline – 0115 959 1279 or email us at employee.eyecare@boots.co.uk

Corporate eyecare helpline 0115 959 1279 or email us at employee.eyecare@boots.co.uk
Boots Opticians

Corporate eyecare scheme

I’m interested in joining the scheme – what do I do now?

Please complete the business account application form and return it to the address on the form. Alternatively, you can email the completed form to: employee.eyecare@boots.co.uk.

Once we’ve received your application form, we’ll set up a business account for you and send you the vouchers that you’ll need to run your scheme. From receipt of your application form it takes us around 2 weeks to get your account up and running.

How do I order new vouchers when I run out?

Call us on 0115 959 1279 and we’ll send them to you.

Can you help us promote this scheme to our employees?

Of course! Please contact us to discuss how we can help.

Payment terms and conditions:

Payment terms – Net monthly. If we don’t receive payment by the due date, we may charge interest at 8% above NatWest base rate.

Conditions – your Boots Opticians account number must be clearly marked on all vouchers. The vouchers need to be kept in a safe place, as you’ll be invoiced for any vouchers that are assigned to you that are presented at Boots Opticians.

We reserve the right to withdraw this scheme at any time. We also reserve the right to end membership of the ‘Business Class’ scheme for inactive users of the eyecare scheme.

How to pay

By BACS – please provide your Boots Opticians account number on your remittance. BACS remittances should be forwarded to:

Boots Opticians
Sales Accounting
D90E F06
Thane Road
Nottingham
NG90 1BS

BACS payment details are as follows:

Account name: Boots UK Limited
Bank name: NatWest
Bank address: 148-149 Victoria Centre
            Nottingham
Sort code: 60-80-09
Account number: 61033081

Declaration

I confirm that I am an authorised signatory, that I have read and understood the payment terms and conditions, and in consideration of me being granted credit facilities, I agree to be bound by the said terms.

Signed: ___________________________ Date: ___________________________
Print name: ___________________________ Position: ___________________________
